

RAIS[®]

OUTDOOR LIVING

Decorate with fire

MADE WITH HEART, PASSION AND EFFORT

RAIS's outdoor collection is traditionally crafted and carefully made with heart, passion and effort. Craftsmanship takes time and so does tending to every detail - but the result is worth the while.

CORTEN STEEL PRODUCTS

The rich rust patina is created by wind, weather and salt water and adds character and soul to each grill and fireplace. No two pieces are alike, and each of them has its own unique story to tell.

Find inspiration to create cozy open-air living spaces with a no-worries vibe - and gather with friends and family to enjoy a crackling bonfire or an alfresco meal.

THE PATINATED CORTEN STEEL

creates a warm and natural look that gets
even more beautiful over time
